**Earth Alive Resources Introduces All-Natural RapidAll Cleaner**  
RapidAll is a sanitation cleaner that doesn't harm humans, animals or the environment. It constantly digests materials that cause discoloration and odors. RapidAll does what harmful acidic chemicals do. It is exempt from all certifications such as OSHA, WHMIS, HAZMAT, etc. It eliminates stinky mop floor smell while cleaning grout lines. At any dilution, it will not harm the surface or operator. It uses cool tap water to clean. Earth Alive is the first cleaning product company the Green Restaurant Assn. has endorsed. Write to Earth Alive Resources for info Or call 866-484-0612
